

SS Peter and Paul Communion Procedure

Communion will be during Mass in single line, keeping 6 feet from those outside your household. A Minister will distribute at the base of the Sanctuary, also a Minister will distribute Communion in the Hall when needed.

Parishioners self-release for communion one pew at a time, alternating pews right and left, starting with front row. Those not receiving communion are asked to come forward for a blessing (cross arms over chest) to avoid congestion in the pews upon return.

Please help us keep our clergy, ministers and other parishioners safe by the following:

❖ Sanitize your hands in the pew immediately before communion

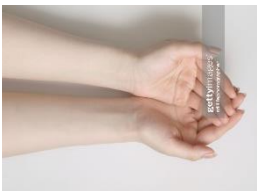

❖ Please assure that your nose and mouth are always covered by your mask.

❖ When it is your turn to receive communion:

➤ Step forward only as far as the **X** in front of the Minister

➤ Extend your arms out completely, with your palms flat

➤ Walk to the **X** on your side...

(Remove your mask briefly to consume the Eucharist)

➤ Pull down your mask to consume the precious body.

➤ Replace your mask immediately than proceed back down the side isle to your original seat.
